

ASSIGNING DISCUSSION ROLES

Assigning discussion roles gives students different permissions within the discussion board. The default role for students is participant, which allows students to read and reply to posts. Student roles can be changed to moderator to help manage the discussion forum. The moderator role allows students to delete, edit and lock posts in any forum.

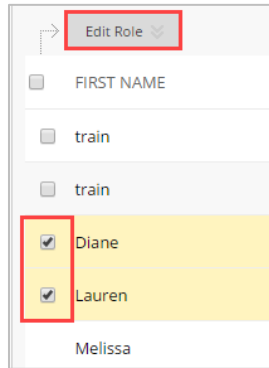

Instructions

1. In the Discussion Board, select the forum to edit. Click on the down arrow  and select **Manage**.

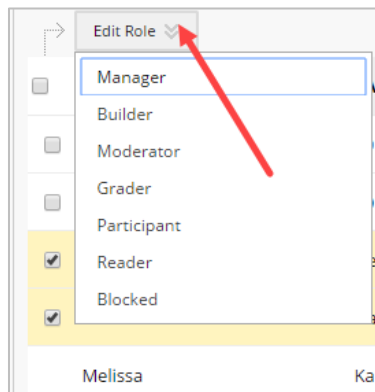

2. Select the student(s) whose role to change by clicking the box next to their name. Then select the **Edit Role** drop down menu.

ASSIGNING DISCUSSION ROLES

3. In the drop down menu, select the role to change the student(s) to.

4. The last column displays the forum role for each student.

FIRST NAME	LAST NAME	USERNAME	FORUM ROLE
train	19	train 19	Participant
train	20	train 20	Participant
