

REVIEW GRADED TEST/QUIZ

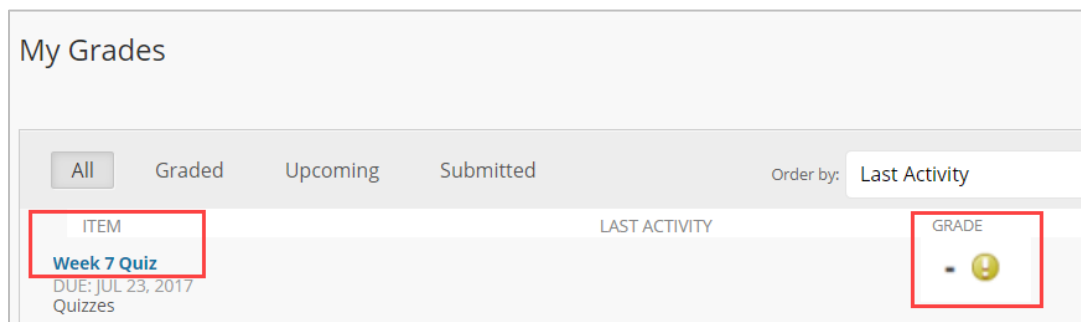

If you have taken a quiz or test containing multiple choice or true/false questions, your score may be automatically calculated by ulearn and results will be available upon your submission. If your quiz or test contained any fill-in-the-blank or essay questions, you will not see a grade until your instructor has manually graded your work.

Instructions

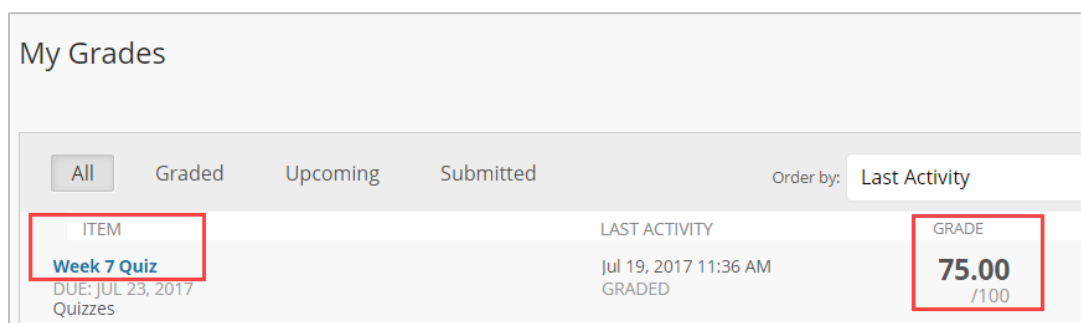

1. From the main menu on the left side of the course site, click on **My Grades**.

2. In the **Item** column, search for the name of the quiz or test you have taken. If the item has not yet been graded, you will see an exclamation mark icon in the Grade column on the right.

If the item has been graded, you will see a score in the grade column.
