

ADD A TURNITIN ASSIGNMENT

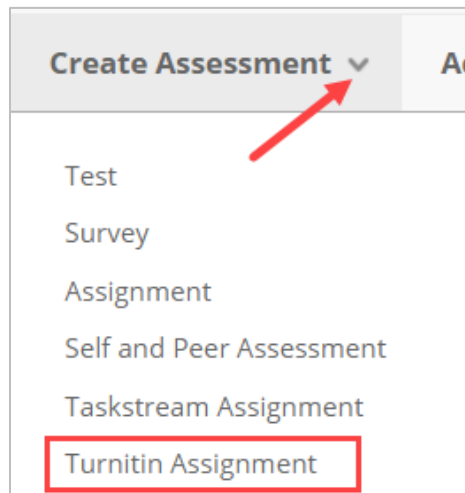

Follow the steps listed for creating a Turnitin Assignment in a ulearn course.

Instructions

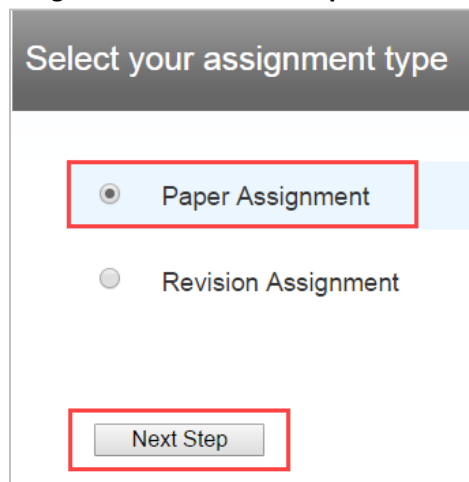

1. Navigate to the content area or folder where you want to add a Turnitin Assignment.

2. Click on the **Create Assessment** menu and then select **Turnitin Assignment**.

3. If a User Agreement screen appears, click the appropriate option and continue.
4. Select the assignment type. A **Paper Assignment** is the main paper that will be submitted by a student for grading. A **Revision Assignment** allows students to submit a draft of a paper assignment. Click **Next Step**.

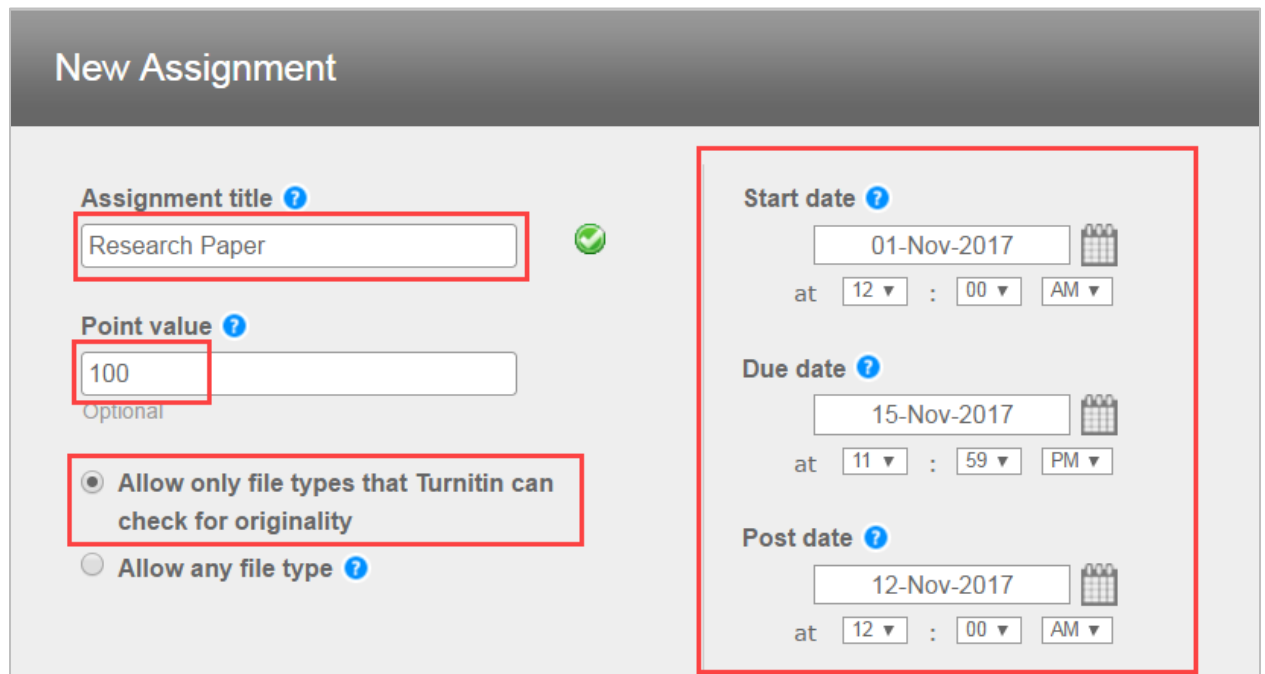

ADD A TURNITIN ASSIGNMENT

Note:

You must create a Paper Assignment before you can create a Revision Assignment.

5. On the **New Assignment** screen, enter an **Assignment title** and **Point value** that will be copied over to an associated column in the ulearn Grade Center. Select **Start and Due dates and times**. Students are only able to submit a paper when the start date and time has passed. After the due date and time has passed, students are blocked from submitting unless late submissions are enabled. You will also see a **Post date** for your assignment. This is relevant if you plan to use GradeMark to mark up and grade papers. If using GradeMark, the post date would be the date/time when the graded papers become available to students.

New Assignment

Assignment title ?
Research Paper

Point value ?
100
Optional

Allow only file types that Turnitin can check for originality
 Allow any file type ?

Start date ?
01-Nov-2017
at 12 : 00 AM

Due date ?
15-Nov-2017
at 11 : 59 PM

Post date ?
12-Nov-2017
at 12 : 00 AM

6. Click **Optional Settings** to select additional settings.

**Note:**

Rubrics can be created and attached to the Turnitin assignment to assist with grading.

ADD A TURNITIN ASSIGNMENT

In **Optional Settings**, you can turn off the creation of originality reports (if you intend to use Feedback Studio only), indicate if you will allow submissions after the due date, and enable students to view their own originality reports. Other settings that may be helpful include options to not include bibliographic materials, quoted content, and small matches from the originality report. Rubrics can also be attached to the assignment. Special Instructions can be added which appear in ulearn below the title of the assignment.
